

Difference Spotting Game

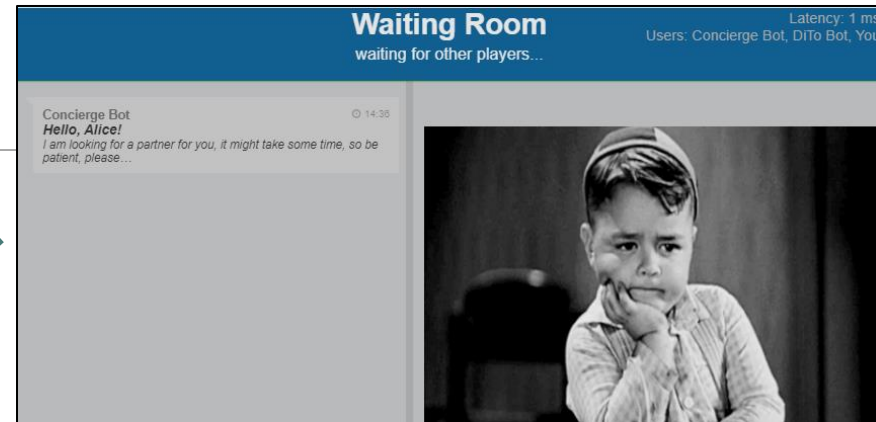

Goal of the Game

- you will be in a chatroom like the one you see on the right
- you need to describe the image to your chat partner
- together, you identify a difference in your views
- when you both agree that you found the difference, you can finish the game

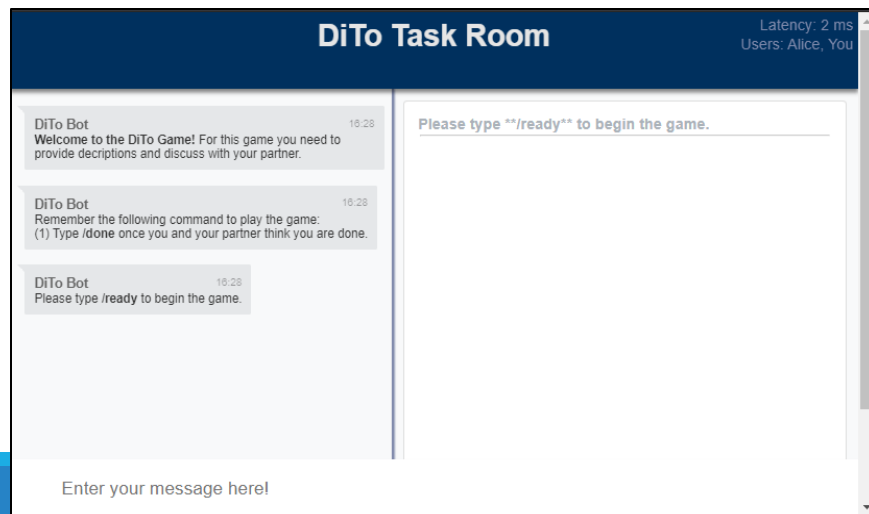

Accept the HIT

you are in the Waiting Room

another player enters
the Waiting Room

you are **both** sent to the
Task Room

there is **no other**
player coming

you receive a token for
waiting, but you can
wait longer if you want

Game interface

game instructions

- read the instructions
- discuss with your partner

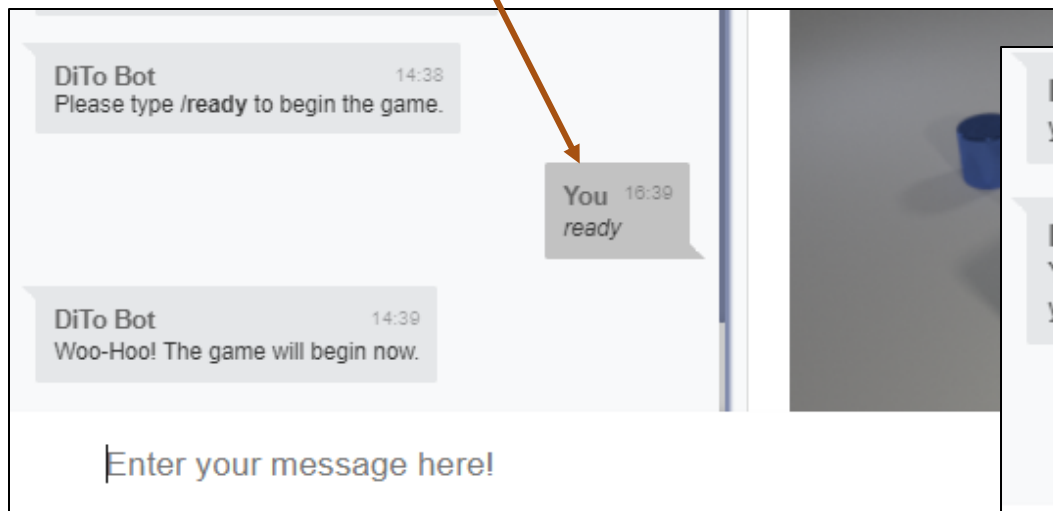

enter your messages and commands here, e.g. "/ready" to begin the game

Game Commands

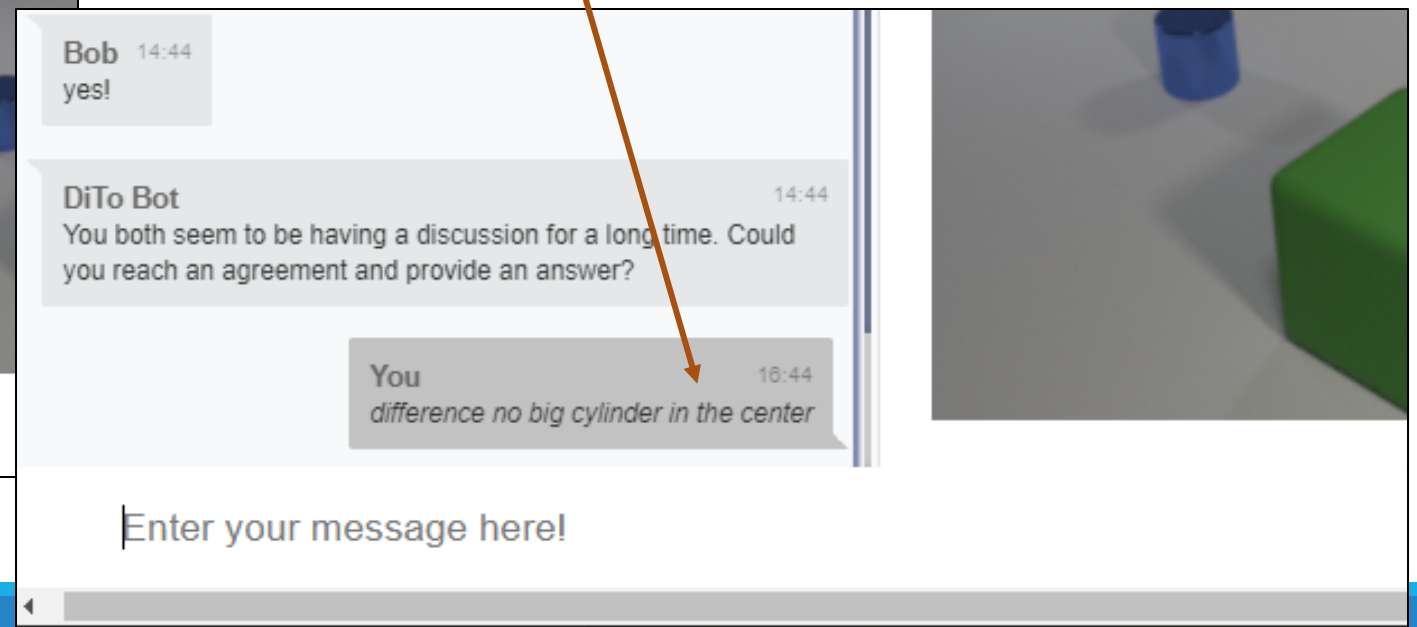

start the game

- `"/ready"` to start the game

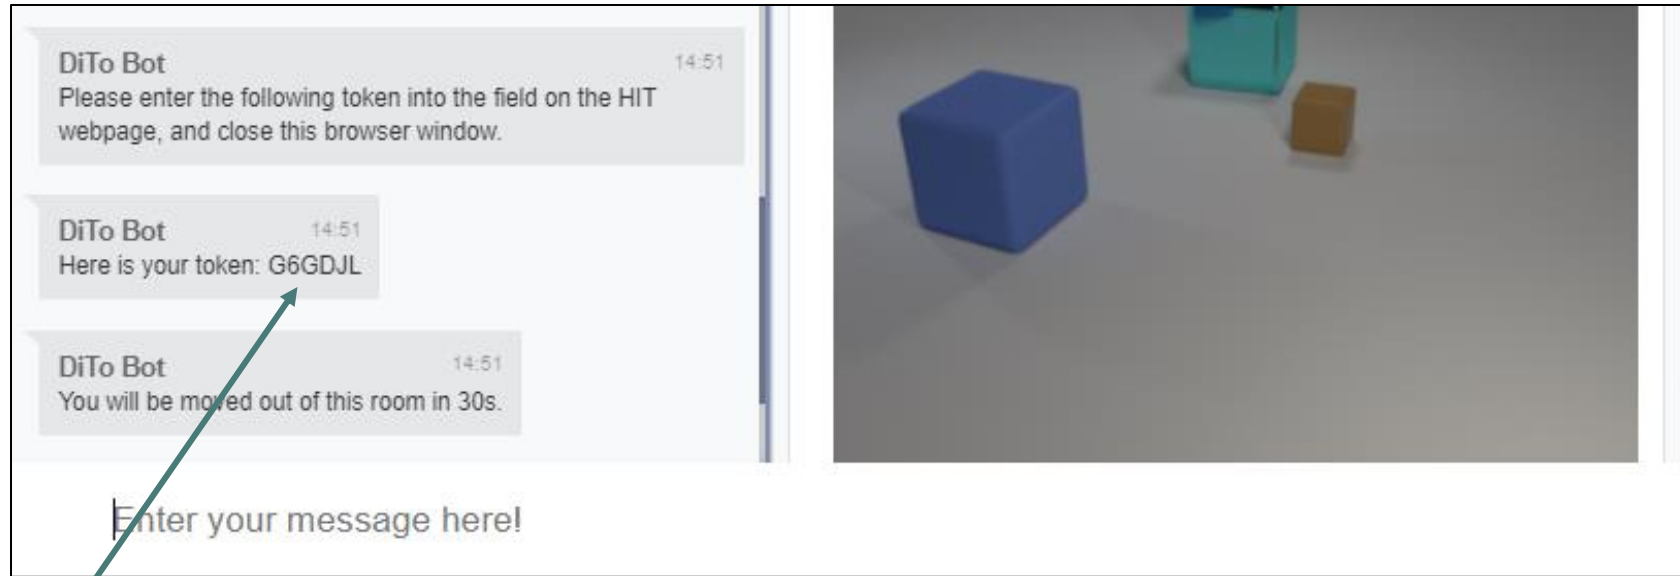

finish the game

- `"/difference"` to end the game, together with a **brief capture of the difference**

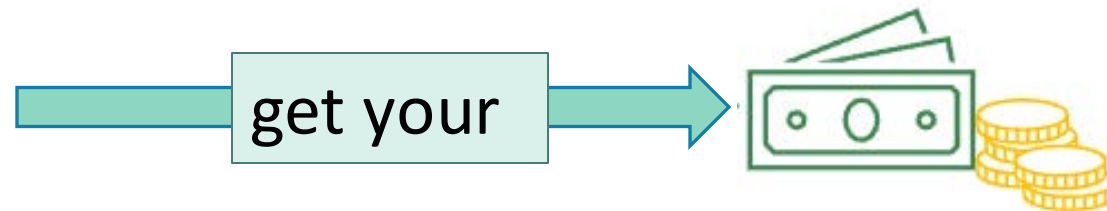

Finish the Game

the room is now
read-only!

copy the **token** and submit
it to Mechanical Turk

Requirements and Payment

- you receive 0.65\$ for the completion of the game
- in case you finish the game successfully, you receive a bonus of 0.15\$
- if no other user enters the Waiting room, you receive 0.15\$ for your waiting time
- you are **allowed to play the game several times**
- make sure you **submit your token received for the previous round before starting another one!**
- please **do not accept multiple HITs** of ours simultaneously
- we are looking for **native speakers of English only**
- you are **not allowed to leave** the task room during the game
- we will pay **only** if you follow the game instructions
- **please do not discuss things that are irrelevant to the task!**
- by taking part in this study **you agree to your actions in the game** (i.e. your messages and commands) **being logged**
